Dear Resident,

### INSTALLATION OF NEW ZEBRA CROSSING – HILLSIDE ROAD NEAR MAYS HILL ROAD

We are writing to you to make you aware of the Council's proposal to install a new zebra crossing on Hillside Road, east of the junction with Mays Hill Road, as shown on the drawing overleaf.

This is to help create a safe crossing point particularly for the large volumes of school children walking to and from Harris Primary Academy in Mays Hill Road and to encourage more children to walk by creating a safer environment. This will require some changes to be made to the existing uncontrolled on-street parking.

If you have any comments regarding this proposal, please send them in writing to reach us within 21 days of the date of this letter using the postal or email address at the top of this letter.

Yours faithfully,

Transport Engagement Team
